## Security Printing and Hot Stamping

Concerned about your products brand being stolen or compromised by counterfeiters?

Indsale Ltd can provide security measures that contain a number of overt and covert security features that are very difficult and costly to reproduce and counterfeit. This ensures others are not making money under your product's brand.

We have the ability to provide "tamper-evident" security measures to further ensure your product is not compromised or misused while improving customer confidence and satisfaction.

### Indsale delivers sophisticated, high security features to such documents as:

Passports  
Identification cards  
Drivers licenses

For more information about how Indsale can provide you with product peace of mind or help add a new level of security to your documents, please contact us.
